Barnstable Airport Seeking Public Input On Master Plan

Officials want the public's input on how to ensure the safety and efficiency of the airport for the next 20 years.

The preparation of an airport master plan is required by the Federal Aviation Administration for Barnstable Airport to receive federal money for airport projects, airport manager Katie Servis said.

"An airport master plan is a comprehensive study of an airport that considers the needs of its airfield, local general aviation, corporate aviation and commercial aviation over the next 20 years as well as including recommendations for promoting compatible land use around the airport to maximize opportunities for non-aeronautical revenues to help support the airport's financial future," Servis said in a statement.

Servis added that community input is an important part of the process, and normally there would be in-person meetings to discuss a new master plan, But because of the coronavirus pandemic, key information was published on the airport's [YouTube channel](#).

Officials said comments and questions can be sent to hyamasterplan@mjinc.com. Comments and questions received by Nov. 2 will be included in a response video on the airport's YouTube channel at a later date.
