

# Cape Cod Gateway Airport

Invites you to a

Public Information Meeting  
for the

## Cape Cod Gateway Airport Environmental Review for Improvement Projects

Wednesday, June 21, 2023

2:00 PM (virtual – Zoom) and 6:00 PM (in-person)

In-Person: Jim Crocker Hearing Room, 2<sup>nd</sup> Floor, Barnstable Town Hall,  
367 Main Street, Hyannis, MA 02601

Virtual: <https://virtualmeeting.link/CCGA-ER2>

The purpose of this public meeting is to provide members of the community with an update on the Cape Cod Gateway Airport environmental review process for airport improvement projects. The meeting will provide an update of the ongoing and future environmental review phases of the 2022 Master Plan projects and allow attendees to offer comments or questions. To learn more about the project, review related materials, or find contact information, please visit the project website at <https://flyhya.com/environmental-assessment/>

HYA provides reasonable accommodations and/or language assistance free of charge upon request, as appropriate. To request accommodations, including sign-language, CART, or language translations and interpretation, please contact the project team at [enviroHYA@epsilonassociates.com](mailto:enviroHYA@epsilonassociates.com). Requests should be made by June 12<sup>th</sup>, 2023.

In May 2022, Cape Cod Gateway Airport completed the development of a 20-year Master Plan to ensure that the facility can continue to safely and efficiently meet the aviation needs of the National Airspace System and the surrounding community. The Master Plan is the first part of the planning process; environmental review is the second part of the process started in November 2022. The Airport will spend 18-24 months total coordinating with state, federal, and local agencies under the environmental review requirements of National Environmental Policy Act (NEPA), Massachusetts Environmental Policy Act (MEPA), and the Cape Cod Commission. Projects included in the Master Plan update will also, as necessary, meet permitting requirements after the environmental review is completed. No permitting is included in this planning review phase.

All residents, local business owners, and interested parties are invited to attend. All attendees who provide an email address will be included on the project's contact list to

receive future updates on the project. Specific questions or comments on the project can be emailed to [enviroHYA@epsilonassociates.com](mailto:enviroHYA@epsilonassociates.com)
