RE: HYA Environmental Assessment and Draft EIR for Airport Improvement Projects
Public Meeting #5

Dear Cape Cod Gateway Airport Community Members,

We are writing to update interested parties on the Cape Cod Gateway Airport Master Plan Final Environmental Assessment/Environmental Impact Report (EA/EIR) status.

We are in the process of scheduling the fifth public meeting to be held in August 2024. A final date and time will be circulated and published when confirmed with the Town of Barnstable, including a link to the virtual session and the location of the in-person meeting. All members of the public are welcome to attend. This meeting will focus in particular on the response to comments received on the Draft EA/EIR and the additional analysis completed since then.

The HYA Project team is preparing the Final EA/EIR. When complete, the Final EA/EIR will be made available on the Airport's website on September 15, 2024 when submitted. It has NOT been submitted to the Massachusetts Environmental Policy Act (MEPA) Office and Federal Aviation Administration (FAA) for formal National Environmental Policy Act (NEPA) review or public comment.

Any comments or concerns can be directed to enviroHYA@epsilonassociates.com.

Thank you for your continued interest and participation.

Kind regards,

A handwritten signature in black ink that reads "Katie R. Servis". The signature is written in a cursive style.

Katie R. Servis, Airport Manager, Cape Cod Gateway Airport
